## Coverage:

Apply at a rate of 5ml/50 litres of water and re-apply every 2 weeks.

Water Quality > Aquatic Barley Straw Extract  
Aquarium Strength

## Aquatic Barley Straw Extract - Aquarium Strength

*Aquatic Barley Straw Extract is the natural eco-friendly way to limit new algae growth in Aquariums, fish tanks and water features.*

### Description

*Aquatic Barley Straw Extract - Aquarium Strength* is a highly concentrated extract which can be delivered quickly & easily to limit new algal growth. It has been developed as a convenient way of applying and targeting new algal growth which is natural, eco friendly, safe for humans, fish and pets & will not affect aquatic plants.

*Aquatic Barley Straw Extract - Aquarium Strength* is perfectly safe for fish tanks and aquarium filter systems. It is made from all natural, 100% Australian grown barley, harvested, processed and distributed by Australian owned and operated companies.

### Directions

*Aquatic Barley Straw Extract - Aquarium Strength* is best applied before algae appears as it works best as an algae growth suppressant, limiting new algae.

It's ideal for use immediately after a fish tank or aquarium clean & re-fill or prior to algae first appearing.

Tip container upside down to gently mix, measure the required amount of product & pour directly into the water.

### Application Rates

For indoor Fish Tanks & Aquariums – Apply at a rate of 5ml/50 litres of water & re-apply every 2 weeks.

For water with high turbidity, or poor water clarity apply an additional 20% more product, until clarity improves.

### Available Sizes

50ml, 125ml, 250ml, 500ml, 1 Litre

## AQUATIC BARLEY STRAW PELLETS

**FOR BEST RESULTS:**  
We recommend using  
Aquatic Barley Straw Extract  
in conjunction with Aquatic  
Barley Straw Pellets.

**Aquatic Barley Straw Pellets are also a natural eco-friendly way to limit new algae growth in ponds, fountains, water features and fish tanks.**

Aquatic Barley Straw Pellets are best applied before algae appears. Aquatic Barley Straw works as an algae suppressant, limiting new algae growth. If algae is present we recommend you fast track tackling your algae by using our Aquarium Strength Barley Straw Extract in conjunction with our Aquatic Barley Straw Pellets.

This combination will give you the quickest and best result possible for eliminating algae in lakes, dams, ponds, fountains, water features, fish tanks and garden water tanks.

**100% Australian grown.**
